Enthusiasm Prevails for
Big Carnival to Celebrate
Victoria DayKeen Interest Demonstrated in Big
Holiday Event for May 23-24-25
in Skating Rink.

Attendance at the meeting of the carnival committee March 19 indicated much interest and enthusiasm in this event, scheduled in the Skating Rink for May 23-24-25.

Three major prizes are to be drawn for the first a Maytag electric washing machine, value \$150; 2nd, handsome radio valued \$189, and third, a very fine Chesterfield suite valued at \$275.

D. Gillespie presided and outlined the purpose of the carnival, stating that proceeds would be used for community purposes in whatever way the Citizens League committee deemed advisable.

Harry Garner, chairman of the jockey dance committee, reported on proposed arrangements, and stated that Arcadians orchestra would contract to play for the three nights at \$73.50. John Salvador volunteered to place the piano in the rink free of charge.

H. C. McBurney, chairman of the purchasing committee, outlined the steps taken towards purchasing supplies, and stated that the parties supplying the major prizes had kindly agreed to them. The tickets will be placed on sale shortly, and the captains in charge will be as follows:

Peter Smith, electric washing machine; John Salvador, radio; Adam Smith, Chesterfield suite. W. L. Rippan was appointed financial secretary and treasurer for the carnival.

The committee also discussed the sports day for Dominion Day, July 1, and a committee was appointed to discuss the laying out of a permanent race track on the sports field. The committee will include Mayor Pattinson, H. T. Halliwell and D. Gillespie.

A request was made by the football club to hold a dance, and this was left over for further consideration. It was suggested that the rink be donated for this purpose, as the floor will be laid for the carnival, which would avoid added expense.

The appointment of men and teams for the various booths was left over for a later meeting, of which announcement will be made as early as possible.

Judging from the enthusiasm the committee anticipate whole-hearted support from the public in this big community effort to raise funds for worthy purposes.

An application for a refreshment booth, from J. Lysek, of Palm Court, was read, and there over other applicants had sent in applications, concerning which an advertisement appears in this issue.

BASKETBALL BOYS AND
GIRLS AT BELLEVUE

The Adanacs journeyed to Bellevue on Monday evening, and suffered defeat by the clubs of that town. The games are reported to have been quite rough.

CITIZENS LEAGUE MEMBERSHIP
CAMPAIGN.

The membership campaign for the Citizens League, whereby tickets are sold at 50c for gent and 25c for ladies, is in order to provide funds for league expenses. President Morrison explained that there were certain essential expenses incurred, including stenographer, preparation of lists, printing, and other expenses, and it is felt that quite a large number of citizens would be willing to help defray these expenses. An organization must have some funds for legitimate expenses, and this is the reason for the membership campaign.

A small contribution from every supporter of the League would more than cover the expenses, and it is hoped that this support will be forthcoming.

CONCERT AT HILLCREST

A very interesting program was given in Cole's theatre, Hillcrest, on March 17, in which the following took part: Miss Eileen Jones' pupils in an Irish Reel; Mrs. Balkwill's Irish Girls; Peggy Norton, dance; songs by Nancy Thomas and Miss Irene Belopotsky; Bellevue children in "Story Book"; Catherine Gregory and Mrs. Mary Lazarenko in dance; Mrs. Mary Lazarenko in Red Cross Nurses; Miss Belopotsky's group in Collegiate Rap Dance; Bellevue men in "Hotel Clerk's Troubles"; Miss Belopotsky's group in Hawaiian number; and Irish group song; Bellevue children in "Dancing to the Fair"; Ed Cardie, song; Mrs. Balkwill's group in Chinese dance. The same program was repeated in Bellevue on Wednesday evening.

WEDDING AND SHOWERS

Miss Gwendolyn Snowdon, only daughter of Mr. and Mrs. Herbert Snowdon of Coleman, and Mr. Leonard Lewis, only son of Mr. and Mrs. Harry Lewis of Hillcrest, were married at Bellevue on March 4. Rev. John McBurney, pastor of the United Church, officiating.

A shower was given by Miss Irene Nicholson in honor of Mrs. Leonard Lewis (nee Owen Snowdon) at the home of Mrs. H. Snowdon on Friday March 17. Four tables of whist were played, the first prize going to Mrs. Harold Willetts; second to Mrs. George Duffield and the consolation to Miss Nicholson.

Mr. Stewart Milley and Mrs. Regner entertained in honor of Mrs. Leonard Lewis (nee Owen Snowdon) at the home of Mrs. H. Snowdon on Friday March 17. Six tables of whist were played, the first prize going to Mrs. J. L. Lonsbury; second, Mrs. Leonard Lewis, and consolation to Mrs. Slat.

PRACTICE RECIPROCITY IN
BUSINESS.

Buy your printed matter, counter check books, loose leaf ledger sheets, etc., from your local printing office. Such transactions are mutually profitable. We both lose when you send money away for goods which can be purchased here and thereby send money to Coleman workmen. Order from The Journal.

Is your dog's tax paid? If not, you had better attend to it immediately or your dog may get the hook and a long sleep.

Charles Nicholas

greet the advent of Spring with a number of new lines of Clothing for Men, Women and Children.

Clean-Up Brigade

Buy your kalsomine, brushes, paints, and other needed Spring Supplies now, while prices are reasonably low. Brighten up the home and you'll feel brighter and happier.

PATTINSON'S HARDWARE STORE

Hardware, Electrical Goods, Tools, Etc.

Three Blaireore Men
Given Year at Hard
Labor for AssaultCOMMENT BY JUSTICE IVES ON
BLAIREORE ASSAULT CASE

Abuse of freedom and the laws of Canada is being curbed by some judges who do not hesitate to talk in language which all can understand. Mr. Justice Ives in passing sentence on three men of foreign birth, made the following comment at the Supreme Court sessions at Macleod:

"It is clear from the evidence that you three men, Frank Greza, Jos Antrasau and Frank Harich, had no business going over to Martin Zuber's sky's that night. You were not invited to the party, and as soon as you were there trouble began and it kept increasing, and finally Zuber's was very badly hurt and you three men are responsible for it, and I am going to say now for the benefit of all who hear me, that we have more trouble in Alberta from the people in this Pass, than anywhere else. Some of you people up there bring shame on the people of foreign birth. In your own countries you have no liberty and you are treated more or less like slaves. You come over here where you have perfect freedom and a right to conduct yourselves properly, and then you abuse it and fight with Zuber and make trouble. We are going to try and stop these fights, the courts are the sentence of this court is that each of you be imprisoned at Lehighbridge, with hard labor, for a period of one year."

It is men of the type who were sentenced, influenced by the tight tongues of English or Canadian born agitators, who bring a stigma on others of their countrymen who observe the law and are good citizens. They are the puppets of those who incite to violence while taking good care to keep themselves from the clutches of the law.

Local News

Ratepayers who have not paid 1932 taxes may save the penalty by paying same before April 30.

Another sure sign of spring—automobile salesmen demonstrating their cars and taking prospective purchasers and their families for rides.

The annual meeting of McGillivray Creek Coal & Coke Co. Ltd. was held at the head offices of the company here on March 23rd.

Remember that on Easter Monday St. Alban's will hold a grand whist and drawing. Watch for list of extra good prizes to be offered.

Mrs. Joyce was a week-end visitor from the rug at the Rebekah Lodge and the dance given by the Michel-Nata band on Friday evening.

Mrs. D. C. Robert won the drawing for the rug at the Rebekah Lodge and the dance given by the Michel-Nata band on Friday evening.

Stimulate business for spring dresses and millinery by advertising in the Journal. It is the most effective medium for telling the people what you have to sell.

Place orders early with Frank H. Graham for cut flowers for Easter and potted plants. He will gladly supply you with catalogue. Brighten up the home with some attractive plants.

The concert and midnight frolic in the Polish hall on Sunday evening was attended by quite a large number. The concert was well staged and after midnight the Melody Boys orchestra played for a dance.

The whist drives of the Catholic Ladies Aid on Thursday evenings have been well attended throughout the season, providing many pleasant evenings and quite keen competition. The ladies appreciate the support that has been given their efforts.

A very enjoyable masquerade ball was held at Michel Nat's Friday evening, and those from Coleman attending were Mr. and Mrs. F. B. Van Dusen and Wilma Halliwell. The latter was the guest of Mr. and Mrs. H. A. LeRoy over the week-end.

One of the delivery boys overlooked delivering papers to several customers last week. To make up in part for this oversight, copies of same will be delivered free with this week's issue. Any reader who may require a copy of last week's issue may have same by calling at office. In case of non-delivery at any time, customers would confer a favor by sending word to the office so that carelessness in delivery may be checked up.

There are always good-hearted people who will support any worthy undertaking to raise funds for worthy purposes, no matter if it be for a church, for community relief, or other general welfare purposes. With their word of encouragement and their donations, they help to spread the gospel of good cheer and show by act as well as by word that they are real boosters. The more of that kind of people a town has, the better place it is to live in.

BOY SCOUTS DISTRICT
COUNCIL MEETING

The district council met in Blairmore on Monday evening, H. O. Westrup presiding with Rev. A. S. Pattinson, secretary. District Commissioner Gresham and members of the council were present from Coleman, Blairmore and Hillcrest.

Blairmore and Hillcrest reported that they would send the following Scouts to a patrol leader's course in Blairmore on April 20-21-22: Blairmore—A. Williams, H. Wheatcroft, T. Crowder, N. Parker, J. McDonald, D. Gills; Hillcrest—Douglas Norton.

Provincial Commissioner Bacham wrote stating that if advisable a cul-de-sac course would be held in Blairmore from the week following the Lehighbridge course.

It was also proposed that an invitation be extended to Col. J. Woods, head of the Boy Scouts in Alberta, to come to the Pass towns and address the Scouts and parents.

UNITED CHURCH NOTES

Sunday, March 26th, will mark a milestone in the history of St. Paul's United Church. We have been fortunate in securing Rev. A. K. McMillin, B.A., minister of Wesley United Church, Lehighbridge, as the special preacher.

The choir will render special music in the morning and evening worship 11 a.m. and 7 p.m.

You are most cordially invited to come and worship with us. You will be inspired by Mr. McMillin's messages.

Monday evening, March 27th, the Annual Supper and Concert will be held. A short address on "Some Aspects of the Ministry" will be given by Mr. McMillin. Will you come and help make this anniversary a time of inspiration to us all?

ADANAC CLUB ANNUAL BALL

On Friday, March 24, the Grand Hotel will be the scene of what is anticipated will be a very jolly affair. Arcadians orchestra has been engaged, and the invitations announce that Mrs. R. P. Borden, Mrs. H. Lindoe and Mrs. W. L. Rippon are patronesses.

Dealing with members of organizations who "neglect" to pay their dues, P. H. Edwards, editor of the "Pioneer," writes:

"Parasites sap the strength of every club, be it in sport, fraternal orders, church organizations, the home or the commercial activities of a town. These are the members who, being indolent regarding personal obligations, drag and offset the efforts and achievements of others."

To which we might add—you find 'em everywhere!

COLEMAN ATHLETIC
FOOTBALL CLUB

With the advance of spring football enthusiasts are keenly anticipating the schedule of games between Pass towns from Fernie on the west to Hillcrest and Bellevue east. At a meeting held on March 19 in the council chamber the following officers were appointed: Honorary president, G. E. S. Whiteside; G. Kellock, secretary; P. Sharp, general committee; J. Hadley, J. Smith, W. Martland, W. Raymond, A. Gentile, secretary-treasurer, J. Poston. The next meeting will be held on March 26 at 1 p.m. in the council chamber.

He Has a Hobby

"Tis said that every man has a hobby. Some have a particular game that they hobby, such as golf, curling or other games; others engage in useful pursuits as their hobbies. Of the latter Magistrate Gresham of Blairmore is a case in point. He is more is listed, for his skill in woodwork is quite above the average."

He has a hobby. Some have a particular game that they hobby, such as golf, curling or other games; others engage in useful pursuits as their hobbies. Of the latter Magistrate Gresham of Blairmore is a case in point. He is more is listed, for his skill in woodwork is quite above the average."

He has a hobby. Some have a particular game that they hobby, such as golf, curling or other games; others engage in useful pursuits as their hobbies. Of the latter Magistrate Gresham of Blairmore is a case in point. He is more is listed, for his skill in woodwork is quite above the average."

COAL PRODUCTION

Coal output of Alberta mines for the month of January totaled 477,865 tons, a decrease of 55,877 tons from January of 1932 and of 75,423 tons from December of 1932.

On his visit here, the deputy minister of municipal affairs was agreeably surprised at the manifestation of interest in municipal affairs displayed by the people of Blairmore. As he stood to address an audience of about 700 in the Columbus Hall, he was confronted by people of all ages from three months to eighty years—Blairmore enterprise.

If someone is to be "hooked," there will always be a big crowd at the killing.

There is only one way to increase business, and that is by persistent aggressive effort to interest the public in "who you are and what you've got to sell." Advertising in The Journal is the most effective medium for Coleman storekeepers. It gets into the homes, and the great majority of people look for it weekly.

You may have credit standing in your community, but do not abuse it.

St. Alban's Church Making
Drive to Complete
Improvements to HallAPPEAL TO ANGLICAN CHURCH
MEMBERS.

All members of the Anglican church are asked to support the effort being made to raise funds to complete the improvements in the parish hall. Splendid assistance has been given by a few in labor and donations, and a loan of \$100 was made by the Synod office. About \$200 additional is required to complete the work. The Women's Guild has already given a considerable sum, but it is hoped that all who have not helped in this work will purchase tickets for the whist drive or make a cash donation. If every church member would make it a point to give one dollar it will go a long way towards raising the sum required. Make it an Easter thank-offering.

ST. ALBAN'S PLANNING BIG
EVENT FOR EASTER MONDAY

Would you like to own an electric bridge table? Speeds up the play and deals cards so efficiently that no matter how cards may be stacked, you cannot tell to whom any particular card will be dealt. Can also be used for playing whist equally as well as bridge. Buy a ticket at 25c on the draw which is being held for same. Proceeds are for putting a hardwood floor in St. Alban's parish hall. Table is on view at Kustion's store, and will be drawn for on Easter Monday at a whist drive to be held in the hall. It is hoped to have the hall entirely renovated for the occasion.

NOTICE RE WHIST
DRIVE DRAWING

Ticket sellers for the drawing of the electric bridge table, to be drawn for at the Easter Monday whist drive at St. Alban's parish hall, are asked to report their sales for the week on Monday, March 27, to H. T. Halliwell at the Journal office. The table is on view in Kustion's store, and the proceeds of the whist drive will also be placed on view there.

ST. ALBAN'S CHURCH COLEMAN

Service at St. Alban's on Sunday will be at 11:15 a.m. with celebration of the Holy Communion.

At the evening service at St. Alban's on Sunday W. J. Harris played as violin solo Borowski's "Adoration" with Mr. M. Clifford as organ accompanist.

Her Heart Was Weak

Nerves Shaky, Nights Restless

Mrs. A. Black, Wallaceburg, Ont., writes:—
"I suffered from heart weakness, shaky nerves, and restless nights.
I saw your advertisement for Milburn's Heart and Nerve Pills and decided to try them although I did not have much faith, but now I am very thankful I did as they have proved of wonderful help to me.
I am now strong and well again, but am never without a box in the house."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

A Financial Jig Saw Puzzle.

The fact has been noted in this column on previous occasions that during the past two or three years everybody has been discussing the monetary situation prevailing in the world today, and expressing opinions and offering solutions in regard thereto, even though they lacked the most elementary knowledge of the subject. People informed and uninformed, from the most outstanding economists and financiers to the most indifferent student or casual newspaper reader, have discussed banking, currency, credits, the gold standard, inflation, deflation, international exchange, and a host of allied subjects, with the same freedom and frequently with the same assurance with which they are in the habit of discussing the weather.

This, of course, is a people have the right to do, but the net result has been the dissemination of a vast amount of misinformation and utterly unsound theories, the outcome of which is that large numbers of people are not thinking straight on this important subject, while the majority of the population are hopelessly bewildered and confused, and do not know whose or what opinions to accept as sound and a safe guide to action.

Nor is it to be wondered at, because even some of the most generally accepted theories, advanced by world famous economists, have been proven incorrect when put to the test of actual experience. This was demonstrated in most startling fashion in the United States in the last few days of February and the first days of March. Events across the line moved with great rapidity, and the outcome was to upset previously held views in some important particulars.

Great Britain went off the gold standard in order to check the draining away of its gold reserves and to stop the export of gold from the country. It frankly and officially announced it had gone off the gold standard. The United States had accumulated more than three billion dollars in the world, yet it, too, reached the point where it was necessary to stop all gold export, just as Canada had stopped it. But, unlike Great Britain, both Canada and the United States insisted they were still on the gold standard. So, people are asking, what is a gold standard? Just what does it mean?

But the most surprising development of the case in the United States. The Government authorized the issue of some billions of dollars of new paper money which was not backed by gold at all, yet the Government insisted the country was still on the gold standard. The issue of this new currency was out-and-out inflation, nevertheless the Government announced it was "sound money," notwithstanding that it had no gold backing, because it was supported by real assets.

Now, according to formerly generally accepted financial opinion, the issue of such new currency unbacked by gold would have the effect of depreciating the value of the country's currency. That is, the United States dollar would drop in value in relation to the currencies of other countries. The amazing thing that happened was, instead of the United States dollar being worth less in terms of Canadian dollars or British pounds, it actually increased in value and was worth more. The discount on the Canadian dollar in the United States was increased, and the premium on the United States dollar in Canada became larger.

This process was exactly the reverse of what every financial authority and authoritative economist in Canada had been telling the people of this Dominion would be the effect of inflating our currency by the issue of new paper money which was not supported by a gold backing. Such inflation, we were told, would be the abandonment of "sound money," would result in a further depreciation of our money on the world's money markets, and would seriously injure our credit. But the United States proceeds to inflate to the tune of billions of dollars, the Government declares it is "sound money," and instead of United States dollars depreciating on foreign exchange markets, they actually increase in value.

If this is the effect in the United States, why should an exactly opposite effect be the result in Canada if a similar policy was indulged in? It will be interesting to hear the explanations of our Canadian financiers and economists.

It has been widely contended that inflation should be indulged in by Canada to an extent sufficient to bring the Canadian dollar to a parity with the British pound and thereby promote a larger exchange of trade between the two countries and secure to the primary producer in Canada a better price in Canadian dollars for the products he sold in Great Britain. But, it was likewise argued, another effect would be to increase the already heavy premium Canada is now obliged to pay on all its commitments in the United States.

But, as already noted, inflation in the United States has not worked this way, but in exactly the opposite way. It has not brought the United States dollar near the British pound, but farther away from it. It has not decreased the premium which Canada has to pay in New York, but increased it. If inflation worked the same way in Canada it would not prove an advantage to the primary producer, who have been urging inflation, but impose a further loss upon them; it would not add to the burden of our governments and business interests having large commitments to meet in New York, and who have therefore opposed inflation, but it would assist them.

It is all far more complicated and confusing than a jig-saw puzzle because the pieces do not fit together at all, while in the popular puzzles of today the pieces can be made to fit.

Scotland Yard Used Movies

Film Showing Man-Hunt Shown in English Theatres

Scotland Yard is now employing motion pictures to trace criminals. One of the most intensive man-hunts ever investigated by Scotland Yard was recently carried on in Great Britain and motion pictures were said to have been playing an important part.

Films showing a police description and pictures of a man wanted for murder were currently shown in practically all of the theatres in England with an appeal to the public to assist in the search.

Telephone and telegraph lines in Afghanistan are being extended rapidly.

Fortune In Antiques

Furniture Discovered By Collector

Makes Hotel Owner Rich
A hotel owner in New York has learned he has a gold mine in the lobby of his hotel in antique furniture, bronzes and works of art valued conservatively at more than \$200,000. The treasures had been there 10 years, and were regarded as just so many ornamental additions to the hotel's standard equipment.

An antique collector, passing through the lobby, fell on his knees in front of a \$5,000 Louis XV. parquetry desk, searching for the maker's name. It was being used as a common writing desk in the ladies' writing room. Nearby was a \$10,000 English grandfather's clock, an Elizabethan table of carved oak, some rare marble and bronze statues and huge Italian marble mantelpiece worth \$50,000. The collector sought out the owner, and offered to buy certain articles at prices which made the hotelman immediately consult a dealer.

The owner said the things had been collected by his father-in-law, now dead, who was former owner of the hotel. They had been placed there after his death because the heirs had no other place to put them.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted."

"I was heart sick until the happy thought struck me to dye them. I dyed them a deeper green, and as I used Diamond Dyes they took gorgeous and new. I have never seen eyes to use than Diamond Dyes. They give the most beautiful colors when used either for tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J.F.T., Montreal.

Lakes Failed In Ice Yield

Nova Scotia Faces Ice Famine Due To Mild Winter

Nova Scotia is facing an ice famine and no matter how much the prices of other commodities may drop, the price of ice is due for a sharp rise next summer. The thousands of lakes which have hitherto yielded an annual harvest to the ice men have failed in their yield and instead of the customary sixteen to twenty inches have shown only three to six inches.

There is probably no one town in Nova Scotia where the cutters were able to sink their blades into the usual depth. Truro ice men are preparing to stock an extra supply to meet demands from the outside market.

Winter passed Nova Scotia and particularly Halifax, very lightly in 1932-33. Following the warmest December in 29 years, January and February were unusually mild. The thermometer did not once touch the zero mark and while terrific storms swept the coast these were mostly rain and wind.

Queen Prefers Comedies

Nothing Else On Talkie Program Chosen By Queen Mary

The Queen's preference in moving pictures is for comedies. So the public learned when it was revealed that when the Queen saw her first talking picture. The program chosen by Queen Mary was composed entirely of comedies, headed by a popular British film. Proceeds were devoted to the Richmond Hospital. The younger members of the Royal Family have been "talkie" fans for a long time.

Conserving Motor Fuel

Following the increased use of horses everywhere, word now comes from Greece that the days of the motorcar are numbered. As a fuel conservation measure, those bearing even-numbered license plates are to operate only on Monday, Wednesday and Friday, and those with odd-numbered plates on Tuesday, Thursday and Saturday.

Fruit Trees In Canada

There are 279,472 acres planted to fruit trees in Canada, according to information obtained from the decennial census taken in 1931. On this acreage there are 10,548,918 apple trees; 1,015,465 peach trees; 601,592 pear trees; 822,875 plum trees, and 667,705 cherry trees.

"Poetry should be written on one side of the paper only, shouldn't it?" asked the young versifier.
"That depends on the poetry," replied the editor, wearily. "Lots of it shouldn't be written on either side."

Portugal's wheat crop last year was the largest on record.

Caribou and Fish Plentiful

Trader Says Depression Means Little In Sub-Arctic

Depression means little in the north country where there is abundance of fish and large herds of caribou, according to James Darwish, fur trader of Fort Rae, on Great Slave Lake. It was the trader's first trip out of the "Territories" in 30 years.

Modern conveniences, such as the radio and aeroplane, have greatly changed life in the sub-Arctic. Mr. Darwish said. The 700-mile journey from the end of Fort Rae, formerly a month's trek by dog team, today is covered by plane in six or seven hours.

Mails are delivered monthly in place of the old half-yearly service, and a fur trader now can move his furs "outside" and sell them shortly after they are trapped.

Returned To Land

Over Three Thousand Families Assisted By C.N.R. Last Year

Not since war has Canada experienced such a landward movement from urban communities as that which has taken place during the past year, according to a report issued by Dr. W. J. Black, director of colonization for Canadian National Railways.

The department has assisted 3,402 families during the past year in finding new farm homes, involving a total of half a million acres of land. The department also co-operated in the settlement of 1,413 unemployed families under the relief settlement plan, financed on a tri-partite basis by the Dominion and Provincial Governments and the municipalities in which the families had lived.

Sun Will Shine Again

The sun will shine again. One does not require an easy and unfounded optimism to know that this is true. The world is being readjusted after an extraordinary economic strain, inefficiency and waste are being routed, and in the end there will be unsurpassed opportunities for enterprise for the trained mind.—Ottawa Journal.

Work Of Flying Squad

The famous flying squad of Scotland Yard made over 600 arrests last year. Four hundred and fifty cases involved violent prisoners, one hundred and fifty of them carried arms. The Flying Squad has less than forty members.

Denmark is considering a new-road program calling for the expenditure of \$27,000,000.

For Creamed SOUPS and SAUCES

If you have not tried St. Charles Milk you will be surprised at the improved flavor it gives to cream soups and sauces. It is handy and economical too. Put up in 1 lb. cans which have heads at both ends that you can use for any dish that you wish. Always get St. Charles by name and then you can be certain that you are getting the best evaporated milk.

ST. CHARLES MILK
UNSWEETENED EVAPORATED

Wheat In Perfect Condition

Inspection Shows Wheat Stored In Churchill Elevators In Good Shape

The 2,500,000 bushels of wheat in the Churchill terminal elevators are in perfect condition, according to T. O. Cliff, general superintendent of the plant, who arrived at the P. & M. wharf on the Manitoba "muskeg" train from the sea. Mr. Cliff and a staff of experts, as well as representatives for the board of grain commissioners, Winnipeg, spent two weeks inspecting the grain in storage in the port.

Tests were made concerning temperatures in a number of bins. The power plant was also put into operation, and was said to have functioned well.

This was the first mid-winter test of grain in Churchill. It is said that the first elevator operating crew will move into port about the middle of May.

Passenger from Churchill stated that the shore ice at the mouth of the harbor extended about three miles into the bay. One man versed in harbor work under low temperatures stated that ice-breakers could open Churchill harbor for shipping now, so far as the port was concerned.

Recipes For This Week

(By Betty Barclay)

CREAM OF POTATO SOUP

- 4 medium potatoes.
- 2 slices onion.
- 2 strips bacon.

Wash, peel, cut in cubes, and cook potatoes in enough water to cover until tender. Rub through a strainer. There should be 2 cups mashed potatoes and liquid. Add this mixture to stiff-boiled potatoes may be used to 3 cups of this cream sauce (3 cups milk, 3 tablespoons flour, 3 tablespoons butter). Season to taste. Add 2 tablespoons chopped parsley before serving.

A different flavor may be obtained by adding carrot, leeks or celery instead of onion. Cut leeks or celery in very thin slices crosswise and cook in with the potatoes.

ORANGE SALAD STRAWS

- 1 cup flour.
- 4 tablespoons shortening.
- ½ teaspoon salt.
- ½ teaspoon grated orange rind.
- 1 tablespoon sugar.

Orange juice.

Work fat gently into dry ingredients with finger tips or cut in with pastry cutter. Reserve one-fourth of mixture and add orange juice to rest to make the usual consistency of pie dough. Roll out to about 6 inches in diameter. Spread over about one-third the dry mixture reserved at first, fold it in shape of an envelope, roll again and repeat until dry mixture is used up. On last folding spread 1 tablespoon of butter over dough. Cut into strips of any desired shape and width and bake in a quick oven.

There are five Jewish governors in the United States: Lehman of New York, Horner of Illinois, Schultz of Florida, Seligman of New Mexico, and Meier of Oregon.

An aeroplane travels 10 to 15 miles in writing a two-word name on the sky.

Processes for refining used oils are being tested in Italy.

Canada Commemorates

First Airplane Flight

Plans Used For Machine Were Drawn By Canadian

The first airplane flight in Canada on February 23, 1909, exactly 24 years ago was recently commemorated in the International Airmail Society releasing a special cachet featuring a Maple Leaf, with the scene of the episode, Baddeck, Nova Scotia, 1909. The name of the airplane, "Silver Dart," which was piloted by J. A. D. McCurdy, who now is president of the Montreal Aircraft Industries, is printed in large type. The distance then flown was one-half a mile with no mishaps reported in landing.

Associated with Mr. McCurdy in the construction of the gasoline motor-powered "Silver Dart" were Dr. Alexander Graham Bell, F. W. Baldwin, grandson of Hon. Robert Baldwin, Premier of Canada before Confederation; Glen R. Curtis, Ian C. Morgan, president, International Airmail Society, said in his review of the circumstances under which the flight was undertaken. Mr. McCurdy is a graduate in engineering of the University of Toronto in 1906.

Added interest to the event was the fact that Mr. McCurdy, a Baddeck man, had drawn the plans, so that the machine which made the first flight in Canada primarily was a Canadian product. In honor of the occasion, the Baddeck Town Council presented an engraved testimonial of esteem to Dr. Bell and Mr. McCurdy, including these in their historic records.

International Bridge Match

Contest Between England and United States To Take Place In June

The long-promised contract bridge match between England and the United States will take place in June. Ely Culbertson, the famous American player, has accepted Lt.-Col. H. M. Beasley's challenge to play a duplicate match in London.

Details were settled by cable, and they provide for a return match in New York.

The United States team will comprise Mr. and Mrs. Culbertson, O. Jacoby, T. Lightner and M. Gottlieb. Lt.-Col. Beasley has Mr. Culbertson's letter of acceptance and all that now needs to be done is to find a suitable place for the match. It is intended that the public shall be admitted.

"The selecting of our team," said Lt.-Col. Beasley, "will not be easy. Mr. Culbertson's team is about the strongest formation that could be chosen. Whatever happens it must be a real trial of strength; there must be no saying afterwards, 'This was not England's best team'."

Klugston, a new variety of cheese, developed at the University of British Columbia, is claimed to be so easily digestible that it may be safely eaten by either infants or invalids.

British Premier Discusses Peace Subjects With Mussolini At Rome

Rome, Italy.—A "Mussolini plan" to assure an era of world peace was studied in conferences of the Italian premier with Prime Minister Ramsay MacDonald of Great Britain and his foreign secretary, Sir John Simon, over the weekend, an official communiqué said.

Premier MacDonald and Sir John, who had gone to Geneva to break a stalemate in the world disarmament conference, came to Rome Saturday, March 18, for conferences with Premier Mussolini. While at Geneva, Mr. MacDonald offered a new plan for disarmament.

The "Mussolini plan" is based on collaboration of the four European powers, Great Britain, France, Germany and Italy, described as founded on the spirit of the Kellogg treaty and an international agreement to outlaw war.

The official statement said: "After a full and exhaustive exchange of ideas on the general situation, the ministers examined in these conversations a project for an understanding on larger political questions put forward by the head of the Italian government, with the object of securing collaboration of the four western powers in an effort to promote, in the spirit of the Kellogg pact and a 'no force' declaration, a long period of peace for Europe and the world.

The "no force" agreement mentioned in the text refers to a declaration signed at Geneva by Britain, Germany, France and Italy last December 11 endorsing a principle of simultaneous equality of status for Germany and security for France. The United States signed a part of the agreement.

It was this agreement which induced Germany to return to the world disarmament conference after she had withdrawn.

Better Wheat Prices

Alberta Farmers Figure On Extra Profit To Be Made

Calgary, Alberta.—An additional \$100,000 will be placed in the pockets of Alberta farmers who have wheat still unthreshed. It is estimated by grainmen in figuring out the benefits of the price increase on grain exchanges.

Early snows in Alberta covered about 1,000,000 bushels of wheat. Farmers started threshing the grain this week and with the street price at 35 cents in Calgary at present, compared to about 20 cents in December, some much-needed money will be obtained.

Official Was In Danger

Winnipeg, Man.—"I was afraid the reeve would not leave his office alive if he refused to sign his resignation," Constable Albeck, of the Royal Canadian Mounted Police, testified before Mr. Justice A. K. Dyar, at the trial of 14 men of the Arborg, Man., district on charges of rioting and unlawful assembly in connection with a disturbance last November 29.

Severance Of Relations Between Britain And Russia Is Possibility

London, Eng.—Possibility of a severance of relations between Great Britain and Soviet Russia was discussed in political and business circles as a result of the puzzling arrest of British subjects representing a British concern in the Soviet.

No progress toward a settlement of the affair was made at a conference in the foreign office to which the Russian ambassador was summoned. He was requested to impress his government with the serious view of the situation taken here.

Should the case remain unsettled on April 16, when the present trade agreement with Russia terminates, there would be a possibility of an embargo on Russian goods, it was said.

The British government is convinced there is no ground for accusations of sabotage against those who were arrested.

Persons in close touch with Russian affairs express the opinion the Soviet government may be planning

A Voluntary Exile

Prof. Einstein Will Not Return To Germany Under Present Conditions

New York. Professor Albert Einstein announced himself as a voluntary exile for the present from Germany, when he arrived here from California. How long he will remain out of Germany, Einstein said he does not know. But he "will not set foot on German soil as long as conditions are as at present."

He is sailing for Antwerp, to decide his future course. "I am no Nationalist," he said at a dinner in his honor attended by some of the foremost American scientists and leaders in finance, education, art and letters.

Without mentioning Germany he referred to "the prevailing disease of an exaggerated nationalism," and said:

"This nationalism is a grave danger to the entire western civilization, which at one time had its origin in Greece. Behind it are powers inimical to life. To combat it is inescapably the duty of every well-intentioned and perceiving being of our time."

He spoke of Jewish persecution in "modern Europe" and said "it is not easy to say where the western boundaries of this eastern Europe are to be sought."

Victim Of Dread Disease

Devoted Wife Accompanies Husband To Leper Colony

Toronto, Ont.—Unflinching, a devoted wife will brave the isolation of the New Brunswick leper colony on Treacle Island in company with her diseased husband, it was revealed here. Accompanied by his wife and a nurse, the leper is travelling to the colony aboard a special colonist car placed between locomotive and baggage car.

Victim of the dread disease apparently contracted some years ago in South America, the unfortunate man has been identified as a former well known Toronto athlete and graduate of the University of Toronto. He and his wife learned the nature of his malady about Christmas time. The victim is of latter middle age and his wife about 50.

Board Not Ready Yet

Ottawa, Ont.—The new tariff board has not yet commenced to function and is not likely to until after the board debate in the House has been concluded. It was learned when officers of the board were questioned as to a reference from the British government for a review of the rates on certain commodities.

United States Backs Britain

Washington.—The United States has disclosed its intention to support Great Britain in a move looking towards international action against nations waging war—undeclared or otherwise—by enforcing against them an embargo on arms shipments.

A spectacular trial of the Englishmen, similar to that in which several German engineers were involved several years ago.

It was said such a move, without provision for full defence facilities might result in a break in diplomatic relations.

Moscow, Russia. Representations by Great Britain in connection with the recent arrest of several British representatives of the Metropolitan-Vickers Electrical Company, were delivered to the foreign minister by the ambassador from London.

It was understood the ambassador did not specifically request release of the prisoners, but indicated that such action would be the course most satisfactory to London.

Maxim Litvinoff, the foreign commissar, said, according to an unofficial account of the conversations, that the Soviet government reserved the right of every sovereign state to deal according to its laws with persons living within its territory.

Would Maintain Neutrality

Winston Churchill Urges Britain To Avoid European Alliances

London, Eng.—Winston Churchill, former Conservative Chancellor of the Exchequer, urged before the House of Commons that Britain keep herself free from European entanglements.

Mr. Churchill, who was speaking in debate on the air estimates, said that to keep out of commitments on the continent in the United Kingdom must be strong enough to maintain her neutrality and must, therefore, carry out her full programme of air defence.

Sir Phillip Sasson, under-secretary for air, presenting the estimates, told the House the Royal Air Force had effected economies in its own anxiety as ten regular squadrons were still required to complete the "modest" programme approved as far back as 1923. In terms of first line strength, he added, the Royal Air Force stood today fifth in the list of air powers, while at the end of the Great War it claimed first place.

Registration Of Voters

Compulsory Voting Law For Canada May Be Introduced

Ottawa, Ont.—Indications were seen in the senate debate that recommendations may issue from that chamber for a system of compulsory registration of voters and compulsory voting for the electors of Canada, and severe penalties involving imprisonment for impersonation at the polls. Right Hon. Arthur Meighen, government leader; Gen. A. D. McRae, Vancouver; Hon. W. A. Buchanan, Lethbridge; and Hon. C. B. Lalonde, Montreal, took part in the adjourned debate.

Senator Meighen observed that in all the speeches that have been made on this subject, since it was introduced a week ago by Senator W. E. Foster, there had been agreement that election costs were too high, and that some change should be made, preferably a system of compulsory registration and voting. He believed a committee of the senate might do some valuable work along this line.

Railway Bill Passes

Carried In House Of Commons By Substantial Majority

Ottawa, Ont.—The railway bill was carried in the House of Commons by a vote of 120 to 65. Seven Liberals, two Independents and four U.F.A. voted with the government in support of the bill. All the Labor and five U.F.A. voted with the remainder of the Liberals against the bill.

The railway legislation established a board of three trustees to manage the Canadian National Railways, enjoining the Canadian National and Canadian Pacific to co-operative measures to reduce expenses, and sets up an arbitral board to settle disputes between the two companies.

Herriot Warns France

Paris, France.—Former Premier Edouard Herriot has frankly warned France that it is to her "essential interest" to pay her three-month overdue debt to United States as soon as possible in view of changed conditions in central Europe.

ENVOY TO BRITAIN

Judge Robert Bingham, prominent publisher of Louisville, whose name has been submitted to Great Britain by the United States for approval as United States Ambassador to the Court of St. James, Judge Bingham was Mayor of Louisville in 1907, Chancellor of Jefferson Circuit Court in 1911, and is trustee of Berea College and Centre College of Danville, Ky.

Unemployment Insurance

Saskatchewan Legislature In Favor Of Federal System

Regina, Sask.—Unanimously, the Saskatchewan legislature went on record in favor of the early creation of a national system of unemployment insurance.

George Speer (Lib., Maple Creek), was the mover of a resolution calling in general terms, for provincial support to any efforts of the federal government to establish unemployment insurance.

Hon. J. F. Bryant, Minister of Public Works, moved an amendment, maintaining specifically a national system of unemployment insurance, the creation of a national commission to devise it, and urging that the government of Saskatchewan cede all constitutional rights in the matter to the federal government.

Mr. Bryant's amendment was accepted by Mr. Speer in preference to his original motion, and the House passed it without division.

Market Recovery

Prices Of Securities Advance On New York Stock Exchange

New York.—One of the most brilliant recoveries in security prices in the history of the New York Stock Exchange attested the restoration of financial confidence which has swept the United States with the reopening of thousands of sound banks.

Shares surged up \$2 to \$16 in scores of favorite issues. The advance in bonds was just as striking. Many issues were swept up \$10 to more than \$50 per bond to \$1,000 par value.

It was in the decisive measures taken in Washington, rather than in news from business and industry that financial quarters found new encouragement.

AS JAPAN "WALKED OUT" OF THE LEAGUE

This dramatic scene had its brief moment in the world spotlight recently, and its consequences gave the war-weary nations a bad scare. Led by their leader, Yosuke Matsuoka (right), Japan's delegation to the League of Nations at Geneva is shown as it "walked out" on that august body following the League's vote of censure, laying the blame for the Far Eastern trouble on Nippon.

Japanese Delegate Says War Between U. S. And Japan Would Be Madness

London, Eng.—Yosuke Matsuoka, chief Japanese delegate at recent League of Nations meetings at which the China-Japanese conflict was considered, declared before his departure for the United States and Japan, "would be an act of madness."

Mr. Matsuoka, who will pass through the United States on his way to Tokyo, asserted Americans have "condoned the fault of Chinese misgovernment and magnified those of Japanese good government."

To explain his analysis of the United States public attitude, he used American slang, saying the American people "fall for appeals to their emotions; this is what they have done regarding China." He made these statements in the course of an interview.

"The United States and Japan have an important mission to fulfill, for the sake of humanity in building up the coming era of Pacific civilization, in which the east and the west will unite in peace for the first time in history," the Japanese diplomat said. "Understanding and friendship between these two advanced countries is essential to the welfare of all the Pacific. It will be of benefit not only to ourselves but to others as well, and particularly to the people of China."

"Paradoxical as the statement may seem at the present time, Japan is, and must continue to be, a friend of China. To the United States, friendship for the colossal country across the Pacific is largely a matter of sentiment; it has no vital interests in China. To Japan, on the other hand, the welfare, security and progress of China is essential. We cannot escape from our duties to the great neighbor beside whom we must live continually, and for us to allow ourselves to become an enemy would be the height of folly."

"We Japanese, because of our geographic propinquity, have to deal with the hard realities of conditions brought about by the Chinese war lords and cannot accept the illusions expounded by American diplomatic Chinese politicians."

Disarmament Plan Is Laid Before Conference By Premier MacDonald

Geneva, Switzerland. The British disarmament plan was laid before the world disarmament conference by Prime Minister Ramsay MacDonald, accompanied by a speech so bold and fervent as to stir the weary conference to fresh life.

He pleaded urgently in an outspoken address to the delegates of 60 nations to stem the stream of apprehension "which is flowing with increasing swiftness to catastrophe."

The plan, drawn up by Mr. MacDonald and Sir John Simon after a week of diligent conversations, will be under world-wide scrutiny for a week, after which the general commission reassembles and debate begins.

The British plan involves substantial reduction of the fighting strength of France and other armed powers, and permits Germany and her former allies to considerably increase their military forces from the maximum figures set by the Treaty of Versailles.

Along with the fact the plan, unlike any others, contains concrete figures, a feature is its provision for security. It contains agreement for a consultative pact by which, if the plan is adopted, leading nations of the world would bind themselves to confer and draw up conclusions immediately there is a breach, or the threat of a breach, of the terms of the Paris peace pact.

The main points of the scheme are five-fold:

(1). It covers a transitional period of five years, with provision for a second conference to be called before the end of that period to prepare a complete new disarmament convention.

(2). It contains a proposal for international control to secure that the convention as signed will not be shirked.

(3). It establishes bodies like the disarmament commission to study further reductions and try to find a solution of unsolved difficulties.

"The real enemies of China are Chinese, not foreigners; certainly not the Japanese. Unless the Chinese were their own enemies a country the size of theirs, the largest in the world, would not be in its present pitiful plight."

"It is true that Japan asks to avoid a clash with Soviet Russia. It is also true, I fully believe, the U.S.S.R. seeks to avoid a clash with Japan. On the other hand, Japan is opposed to the Sovietization of the Far East, which means the Sovietizing of China."

U.S. For Peace

President Roosevelt Strongly Behind Disarmament Plan

Washington.—All the influence of President Roosevelt and the United States government were thrown into a direct appeal to the key nations of Europe to join in a definite cut in military strength to prevent a race of armament building.

One after another the envoys of Great Britain, France and Germany went to the White House and left with the positive assurance the United States stands staunchly behind a policy of less international fear and suspicion for specific reductions in military power.

The chief purpose of the Roosevelt conversations with Ambassadors Paul Claudel of France and Von Prittwitz of Germany, was understood to be to inform them how the United States regards the plan advanced by Prime Minister Ramsay MacDonald to save the disarmament conference from failure.

The chief executive of the United States threw overboard the usual ways of diplomacy and dealt directly with ambassadors without recourse to the state department.

Cost Of Commission

Ottawa, Ont.—The Duff commission cost Canada \$32,338, according to an answer given in the House of Commons to a question asked by Hon. Ian Mackenzie (Liberal, Vancouver Centre).

(4). It gives opportunity for political work before done to restore confidence—essential groundwork of any disarmament.

(5). It uses the doctrine of neutrality laid expounded by United States Secretary of State Henry L. Stimson.

So far as the military figures go, the plan would allow Germany 200,000 men, double the number at present allowed her. It would cut the French total from 700,000 men, at home and abroad, to 400,000, evenly divided.

In naval affairs, the British plan would extend the London naval treaty to include France and Italy, who failed to join the United States, Japan and Great Britain in restricting totals of cruisers and lighter craft.

No maximum was suggested for the British army, nor does the plan include any attempt to limit non-European forces.

Austria's effectives would be fixed at 50,000, Hungary's at 60,000 and Bulgaria's at 60,000.

The French "allies" would be lined up: Poland, 200,000; Roumania, 150,000; Czechoslovakia, 100,000. Russia would be given 500,000 men.

The plan would extend the London naval treaty to include France and Italy. It also would extend the naval holiday on capital ships to all powers except Italy, which would be permitted to build one ship to balance the new French cruiser "Dunkerque."

Germany would be freed legally from the naval restrictions imposed by the Versailles treaty, but actually her naval power would be fixed at the present level until 1928.

This proposed treaty would remain in force for five years. During that period special international commissions would be created to attempt conciliation and settlement of vexing political problems now disturbing Europe.

NOTES AND COMMENTS

Do you feel cramped in your influence and efforts? Do you feel that your sphere of action is too limited? Many oft-times speak apologetically of the town in which they live, especially if it be a small place. Remember, if you feel this way, there are many opportunities to become a big toad in a small puddle and plenty of opportunities to exercise your talents. Despire not the day of small things, for only by doing the small things well will you train yourself to accomplish bigger and better things, and derive happiness in the effort.

A virile vigorous manhood, willing to do and die, the flower of Canada's manhood—this was the type of citizenry which sailed down the St. Lawrence from Valcartier in 1914, later followed by other contingents to France. It is the same spirit which will carry us through present difficulties, and which the Canadian Legion aims to perpetuate. All ex-service men should attend the meeting to be held in the council chamber next Monday at 7.30 p.m.

Frequently the remark is heard that conditions are improving. A visitor from another town drops in, and he displays a more cheerful attitude than has been customary. He believes things are improving. The pessimist will say that he cannot see any improvement. One thing is evident; the majority of people have a little higher appreciation of the small things which they formerly were wont to despise. Neighborliness, the realization that happiness cannot be measured in terms of money, appreciation of the good qualities of your fellow men and women, these are more clearly evident in times of difficulty. In the effort to "keep up with the Jones," to have as good a car as John Brown, and to do things which were beyond many people's incomes, kindness was often subjected to the desire to "put on the dog," to use a familiar slang phrase. The duty of paying small debts was pushed aside, while luxurious tastes were indulged in to the disadvantage of the grocer, the baker and the butcher. By observing the golden rule—"Do unto others as you would be done unto"—can real happiness be attained.

The suggestion has been made that a running track be laid to encourage athletic sports among the young people. With such an ideal location as Coleman's sports field possesses, it should meet with popular favor. The sports committee of the Citizens League might well devote their attention to this, and thereby help in developing good athletes to compete in the field and track sports with other Pass towns. These various efforts for the general benefit of the community will always command a large measure of public support.

"It depends on men, not on where they live," is the title of an article in a service organization's magazine. How true this is, is proved by the varying atmospheres of live and dead towns. Make your town a part of your life, and see the great influence for good it will be. Your friends will be enthused by your interest. Without effort, no man, no human institution of any kind ever went higher, or even remained on the same level. Always they have been going "Down."

There must be direct effort towards a higher objective every day of our lives if we are to progress in usefulness and happiness. We all need inspiration, from the highest to the lowest. We must inspire ourselves to higher service and increased effort. Once a man ceases to have ambition, he is on the down grade.

Three years ago considerable painting and repairing of buildings was done. Every year there is work to be done in this line. Buildings require constant attention to keep them presentable. Home owners derive pleasure from improving their properties, but often delay painting or otherwise improving their surroundings till they cry aloud in their shabbiness for attention. By trying to have these jobs done as early as possible, work is furnished for someone; business is created, money circulates in the payment of these services, and some of it may come back to the man who at first thought it might be a straight cash outlay without any cash returns. But even the satisfaction of having improved one's surroundings, without any other reward, is well worth the effort of having the work done.

Varying comments were passed on The Journal's tabloid edition of last week. Some expressed the opinion that it was a more convenient size for reading than the larger pages; others preferred the usual size and style. Our own inclination would be to print the smaller size pages if we could make at least sixteen pages, as it would then be equal to the eight pages of the size of the ordinary issue. However, it is only by trying a thing that you find the reaction of the public. One thing that is gratifying, however, is that the majority of our readers realize the difficulty of publishing a weekly newspaper on scant revenue, and instead of offering adverse criticism on our experiment, told us in a kindly way that they understood the reason why. They would rather see an "abbreviated" weekly newspaper than none at all.

PONTIAC gives Straight 8 performance with Economy..

WHAT 30,000 MOTORISTS TOLD US

The "Automobile Buyer's Guide" tells about the 30,000 motorists who have chosen Pontiac and provides information which you will find valuable in choosing your next car. Send for free copy to Coleman Research Dept., General Motors Products of Canada, Limited, Oshawa, Ontario.

plus Fisher No-Draft Ventilation

DRIVE Pontiac yourself! Feel the pep and power of 8 cylinders in line... and know that operating costs are extremely low. Prove all you've heard about the comfort of Fisher No-Draft Ventilation. Ride with a complete sense of ease and safety in a car that weighs more than 3,000 pounds... one that offers all the latest, most useful features. If you want a big, full-size automobile, at low price, first see and drive Pontiac... the new Economy Straight-8.

CHECK THESE PONTIAC ADVANCEMENTS: 77-horsepower Straight-8 Engine... Safety Glass in Windshield and all ventilators... 38-point rubber insulation... longer wheelbase... improved Syncro-Mesh Transmission... Starter Button on Dash... Full Pressure Lubrication... Stabilized front end assembly... New type of upholstery... adjustable front seat... screened cowl ventilator.

Prairie Nurseries Ltd. Appoint Local Representative

W. B. Hickhouse, sales manager of Prairie Nurseries, Ltd., of Estevan, Sask., the largest nurseries in Canada, was here on Tuesday evening, and arranged with Frank H. Graham to handle the high-grade nursery stock of the company. This company has laid out gardens for many important public institutions in Western Canada, their salesmen being specialists in landscape gardening, and have established a reputation for giving entire satisfaction to buyers of their stock. Mr. Graham will have a supply of their trees and shrubs for spring planting.

Eastern B.C. Boards of Trade

The report in book form of the proceedings of the 32nd annual convention of the Associated Boards of Trade of Eastern British Columbia has been published. It was held in Fernie on May 31 and June 1, 1932, the delegates from Coleman being O. E. S. Whiteside, R. F. Barnes, G. Kellock and H. T. Halliwell. The annual convention for 1933 will be held in Trail, B.C., on a date to be set by the association executive. It is suggested that Coleman send a delegation, as there are many subjects of common interest in the mining industry to be discussed at the convention.

Miners to Meet on Sunday

Coleman Miners Association will hold their regular monthly meeting in the K. of P. hall on Sunday, March 26, at 2.30 p.m.—D. Gillespie, Secretary.

Spectacular Scenic Route For Prairie Motorists Through Rockies To The Pacific Coast

One of the most spectacular routes available to the motoring public of North America passes through the very heart of the Canadian Rockies, traversing the great mountain playgrounds of Banff and Yoho National Parks. Providing access to such well-known beauty spots as Lake Louise, Moraine Lake, and the valley of the Ten Peaks, Emerald Lake and the Yoho Valley, the western half of this highway is continuous but for the uncompleted section across the Selkirk Range. This last named section, which is known as the Big Bend Highway, is being jointly constructed by the National Parks Service of the Department of the Interior and the Government of British Columbia.

Pending the completion of the last link in this trans-mountain road now under construction along the great northern bend of the Columbia River, motor tourists may bridge the Selkirks by shipping their automobiles via Canadian Pacific Railway from Revelstoke, B.C., to Golden, B.C., or vice versa. With the exception of these 91 miles which must be made by rail, an uninterrupted trip may be enjoyed from the Coast to the Prairies.

A special service providing for the carriage of automobiles between Revelstoke and Golden will be inaugurated on June 15, and extending to September 15, semi-weekly in direction in passenger train service. Automobile baggage cars will be attached to regular passenger train No. 2, eastbound from Revelstoke on Saturdays and Tuesdays, and to train No. 3, westbound from Golden on Sundays and Wednesdays. This arrangement will provide motorists with a direct route to or from the Pacific Coast through the Canadian Rockies.

The train journey between Golden and Revelstoke will be made by daylight, and there will be no delay or unnecessary expense to motorists as their automobiles will be loaded on the same train and made available for immediate delivery on arrival at Golden or Revelstoke.

The rates for carriage of automobiles between the points mentioned will be according to wheelbase, as follows: wheelbase up to 118 inches, \$12.50; wheelbase over 118 to 125 inches, \$15; wheelbase over 125 inches, \$17.50.

Each automobile must be accompanied on the same train by at least one passenger holding regular first-class ticket, single fare \$3.65. All other occupants of the automobile travelling by train must hold valid railway transportation. Automobiles should be delivered to the Company's agent at shipping point at least one hour and thirty minutes prior to departure of train, or approximately before 11:35 a.m. at Revelstoke, and 12:45 p.m. at Golden.

The advantages of this service in providing tourists travelling either east or west with an all-Canadian route are obvious as formalities with immigration or customs officials are made unnecessary.

Experience Is Required

To Determine Best Time For Turkey Egg-Laying

Just as soon as the spring weather comes, turkeys should be fed for egg production, and laying should commence about the middle of April in Eastern Canada and somewhat sooner in Western Canada, with its earlier spring opening—especially in British Columbia, says Mr. A. G. Taylor, Poultry Husbandman, Dominion Department of Agriculture. Much depends on the weather becoming really springlike as to the time for forcing for laying, as eggs laid too early would have to be held too long before setting. This important question must be practically left to the discretion of the attendants. To get turkeys laying just at the proper season requires experience, and beginners should be cautious in this regard. Turkeys should be wintered where they are expected to lay in the spring.

Flexible Window Glass

An inventor in Austria has produced a synthetic window glass, warm to the touch, and somewhat flexible. The process developed for the new "glass" is a closely held trade secret but it is understood that a chemical by treated wood product is an important material used.

Pretty girls are becoming successful smugglers in Europe.

Shortage Of Food Supplies

Marketing Authority Predicts Increase In Cost Of Living

An immediate rise in the prices of food and commodities is predicted by W. B. Somerset, chairman of the Ontario Market Board. Statistical views of farm products, he says, have indicated an upward trend for some time and the turning point has been reached.

World supplies of food, clothing, basic and manufactured goods have been running short, Mr. Somerset stated, "and must reflect this shortage in terms of money. It may even dictate adjustments in terms of essential values. Shortage of butter, cheese, eggs and bacon is particularly marked."

Aiding the Blind

Braille Magazines Have Been Published In Many Languages

Approximately 50,000,000 pages of Braille literature in the form of books, magazines and music have been produced for the blind by the American Braille Press for War and Civilian Blind during the 16-year period of service just ended, according to William Nelson Cromwell, president and founder of the organization.

Reading matter and music published by the American Braille Press have been distributed in more than 40 countries, Cromwell said. In addition to three monthly Braille magazines in English periodicals are published in French, Italian, Polish, Roumanian, Serbian, Spanish and Flemish.

SPRING IS IN THE AIR

It's so fresh and lovely in crepe print. It's all puffed up about its sleeves. And isn't the buttoned wrapped bodice smart?

It's lovely now 'neath the winter coat in a vivid-red or blue and white print in crinkly crepe silk. And you can wear it right through the spring and summer.

It's easily made and will cost so little.

Style No. 991 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 3 1/2 yards of 39-inch material.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

GREAT RUGBY DAY AT TWICKENHAM

A scene taken during the International Rugby Match between England and Ireland at Twickenham, when England won by seventeen points to six. In the picture an Irish half-back is being well tackled in an attempt to break away after a scrum.

Syrup From Sugar Beets

Method Simple and Easily Carried Out In Home

Owing to the many inquiries being received from farmers who wish to make an edible (table) syrup from sugar beets the Division of Chemistry at the Experimental Farm, Ottawa, has been making further experiments to ascertain the possibilities of making a palatable wholesome and good appearing syrup for home use.

The method is quite simple and can easily be carried out in the home and is as follows:

The beets are first washed and the crowns cut off at the lowest leaf scar, or lower, and the beets peeled, crowns and peels being rejected. The beet is then sliced longitudinally (lengthwise of the root) and put through a meat chopper. This ground pulp is put at once before oxidation takes place, into a piece of cheesecloth which has been tied over the top of a fairly large pot containing water. The pulp is then suspended in the cheese cloth over the water but not touching it. An inch or so of water in the pot should be sufficient to start with. Put on a tight lid and boil for half an hour vigorously. After half hour's boiling, wash pulp with warm water allowing this wash water to run into the pot, using as little as possible. Fill the cheese cloth bag with pulp two or three times using the same solution in the pot for steaming the second and third batches. Filter this weak sugar syrup through a good cotton cloth and evaporate it to less than half its volume. Allow this to stand overnight so any solid matter that has come down during the evaporation may settle off. In the morning pour this clear syrup off the solids and boil down to consistency of maple syrup taking off any scum that comes to the top and being careful not to scorch or burn. Bottle or put in jars while still hot and seal tightly. Experimental Farm Note.

Resembles Trip Of Columbus

Way Present Day Trend Strikes Owen D. Young

One of the best stories going around Washington is Owen D. Young's description in a recent director's meeting of how the business world is acting in the depression. "It strikes me," he said, "that we're all in the same boat with Christopher Columbus. He didn't know where he was going when he started. When he was, and when he got back he didn't know where he had been."

The man who built a two-car garage in 1928 was foreclosed after all. He keeps the car on one side and lives in the other.

The Chinese make gelatin from the dried fins of sharks.

New Type Of Hen

Canada Endeavors To Evolve Bird To Conform To New Specifications

The department of agriculture is looking for a new type of hen. The burly Plymouth Rock which combines great egg laying qualities with a plump and substantial body and has long been considered the popular dual-purpose bird, will not do. Neither will the sleek Leghorns, a small bird but an abundant producer of big eggs. The Rhode Island Reds and the varieties of Wyandottes also fail to make the specifications.

When Canada went after a share of the poultry business of the United Kingdom it was found Canadian chickens were too big. The British housewife wants a chicken that weighs 3 1/2 to 3 3/4 pounds.

Chicken raisers in Nova Scotia and British Columbia are seeking to develop such a strain by cross-breeding. The competition will probably spread all over Canada.

What is wanted is a pullet that will weigh 2 1/2 pounds before it is fattened, that is plump and compact and will lay two-ounce eggs and plenty of them. These are specifications and officials of the poultry division are confident such a hen can be developed.

Official Bird For B.C.

Naturalists Recommend Towhee, But

Many People Prefer Robin. Naturalists are urging British Columbia to adopt the towhee as the official bird of the province. The chief objection to the choice is that practically no one knows what a towhee looks like. In fact, a majority of British Columbians probably never heard of the bird until the present agitation arose.

The towhee of British Columbia is a little gray-breasted bird with a black head, having two white primary wing feathers of a distinguishing character. It is loyal to B.C., although it is known in the neighboring state of Washington.

The chief rival of the towhee as the official bird is the robin. Supporters say it is a more colorful bird and it stays in this province the year round.

The towhee is a member of the sparrow family and is able to exist on next to nothing, so far as food is concerned. It is of the genera pipile, and oreopiza, but those who object to the towhee say that these names are not in its favor.

The National Physical Laboratory at Teddington, England, has a new tank, 670 feet long and 30 feet wide, in which scale models of boats and ships of all sizes are tested for speed and seaworthiness.

An elastic glass has been invented in Germany which neither breaks nor splinters.

The Interesting History Of The Development Of Instruments For The Aid Of Navigation

Clever At Camouflage

Wild Creatures Make Themselves Appear One With Their Surroundings

Color plays an important part in the lives of wild creatures, writes O. G. Pike, the naturalist, in Tit-Bits. Some are able to change their color to correspond with surroundings, and so perfectly do they accomplish this that even trained observers will sometimes pass them by.

The English Woodcock, when sitting on its nest among dead leaves, would often be overlooked if it were not for its bright eye, which stands out like a brilliant black diamond. When the ringed plover stands still on the stones of the seashore it is practically invisible at a distance of thirty yards, and its near relation, the Kentish plover, is even more difficult to detect.

It has been said that no one knows the natural color of the chameleon, for one specimen may appear in half-a-dozen different dresses in as many days. If we place it on a green black-ground, it soon assumes a similar green; remove it to a dark brown, and before many hours have passed it will correspond with its new surroundings. Many experiments have been made to determine how many dresses this quick-change artist can put on, but it usually baffles observation, for after many months of study, and when one thinks a record has been obtained of its wardrobe, it suddenly appears in an entirely new creation. If different colored light is focused on each side of the chameleon, each side will take on that particular color, while in the dark it takes on a brown cast.

A little-known tropical creature called the flimblebird gecko is a rapid quick-change artist, for it can make itself practically invisible at a distance of a foot. During the day it clings against its resting place, which may be the bark of a tree covered with lichen, and every changing hue of the latter is faithfully reproduced upon the body of the gecko. The body itself is flanged with irregular lobes of skin, which help to fade it into the background, but its bright eye will often give it away.

Lindbergh Not Dull Student

Usually Well Up In Classes Says Physics Teacher

To millions of people Charles A. Lindbergh is the "Lone Eagle," the young aviator who made the first solo eastward crossing of the Atlantic in an aeroplane; but Dr. Richard Hamer of Halifax remembers him as a fairly bright student in the class he conducted at the University of Wisconsin 10 years ago.

Dr. Hamer was conducting research work at the university in connection with his degree in philosophy and taught physics to a group of engineering students classed as "difficult." Young Lindbergh was a member of this group.

Although America's future aviation idol was subsequently left out from the university, after falling behind in several subjects, Dr. Hamer asserts that he was deeply interested in physics.

"While he was generally regarded as a dull student, I did not find him so," the doctor recalls. "As a matter of fact, he was usually well up among the leaders in my class."

Dr. Hamer recalls that Lindbergh was deeply interested in the deviations in the magnetic field of the earth. On one occasion, he asked if it were not possible to locate one's self at any given point on the earth without taking a position from the sun or stars, and simply by calculating the magnetic intensity at that spot.

The doctor told him at the time that this could be done and explained the principle on which such a step would be based. Later this principle was used in the development of the earth inductor compass, which guided Lindbergh over the wide Atlantic stretches when he made his famous solo hop from New York to Paris.

Entry Depends On Tests

Hubert Scott-Paine, British challenger of Gar Wood for the Harmsworth trophy, has announced through J. Lee Barrett, secretary of the Gold Cup committee, that he will not enter a craft in the race this fall unless experiments this summer prove to his satisfaction that he has a worthy challenger of Wood's boat.

Another important event that occurred during the early part of the Eighteenth Century, as which deserves more than passing notice was the perfecting of the chronometer, by the brothers Harrison, thus enabling mariners to find their longitude with an exactness hitherto impossible. Latitude, the distance north or south of the Equator, was fixed in the eighteenth century by observation with the quadrant, which was a sufficiently reliable instrument; but longitude, the distance east or west, had baffled both navigators and scientists alike from the beginning of history. Phillip III. of Spain offered a prize of 1,000 crowns to anyone who could discover a satisfactory way of finding longitude, and then the States of Holland announced that they would award 10,000 florins to the successful solver of the problem.

Nothing, however, came of these offers, and finally to determine their longitude still remained a cause of frequent disaster to sailors on badly charted coasts. Wrecks were of common occurrence, and lighthouses were few. Indeed, as we know them now they did not exist. Apart from the remains of the Roman pharos at Dover and the lighthouse of Wight, the few coast lights were pale beacon fires placed on some of the more prominent headlands of the European coasts.

The tragic loss of Sir Cloudesley Shovel's fleet in October, 1707, on the Scillys, after a voyage of 100 days, led to the discovery of a method of finding longitude with reasonable accuracy. After many years of the most patient work and experimenting John and William Harrison, in 1765, constructed a reliable chronometer, and the prize, after much delay, was paid in full. Thus the chronometer did for longitude what the quadrant and sextant had done for latitude.—T. Ridge in The Twentieth Century.

London's Lord Mayor

Sends Half His Time Dressing For Formal Functions

Sir Henry Greenaway, Lord Mayor of London, is a martyr to dress. His job is one of the hardest in the world. Hardly a minute of his day is not taken up with some formality or function.

If that were all it might not be so bad. But Sir Henry must pass approximately half his time dressing for each of these affairs, struggling into heavy robes and decorating himself with the costly ceremonial trappings required of London's Lord Mayor.

The Lord Mayor in a year must foot the bill for about \$50,000 worth of banquets and receptions, not to mention the expensive Lord Mayor's Show and his ceremonial wardrobe.

For everyday he wears a scarlet robe decorated with lace, embroidery gold chains and other impressive impediments.

For evening wear, the Lord Mayor dons a black damask robe trimmed with gold, somewhat like the splendid outfit of the Lord Chancellor.

Old London's Streets Safer

Report Shows Decrease In The Number Of Fatalities

London's streets are becoming safer. At any rate fatal casualties are declining. Last year the number of persons killed in the streets of London was 1,263, and the number injured was 52,456. During the last half of the year there were 46 fewer killed than in the last six months, 1931, and the number of injured decreased by 714.

The private motorcar accounts for the majority of fatal accidents. Less than one per cent. of accidents in London occur where the roundabout traffic system is in operation, and junctions where traffic signals are used are nearly as safe.

Reminded In Time

A traveller who was renowned for his tall stories, on being asked out to dinner, made arrangements with his friends who were to accompany him that they should kick him if he began to go too far.

Quite early in the evening he started off.

"That reminds me," he said to the hostess, "of a friend of mine who had a rose garden over 10 miles long and"—he felt a kick—"and two inches wide."

The opomun used its tail as a hand in clinging to boughs.

can't sleep?

Act at once! There's no rest for a body clogged by waste matter. You need Epsom's Fruit Salt every morning.

TAKE Epsom's FRUIT SALT

WORLD HAPPENINGS BRIEFLY TOLD

Royal air force estimates for the current year, totalled £17,428,000, an increase of £26,000.

The national organization of silver fox breeders in Canada inspected 23,669 adult and 27,980 puppy foxes throughout the Dominion last year.

Appointment of George W. Muir to the post of Dominion animal husbandman of the central experimental farm at Ottawa has been announced.

After five years of research and experimentation, Dr. M. Tokugawa has developed an odorless onion in his private garden in Fukuoaka, Japan.

A new port record for grain loading was made recently at Vancouver, when 299,600 bushels of wheat were put into the hold of the S.S. Nipodina in 7 hours and 20 minutes.

Cost of Ontario to date of trans-Canada Highway construction is \$6,926,110. Hon. William Finlayson, minister of lands and forests, has announced. One half the sum will be paid by the Dominion Government.

Appointment of a federal loan council to guarantee all refunding issues in the western provinces for the next five years was urged in the Alberta Legislature by D. M. Duggan, Conservative leader.

Crop production should not be curtailed even during those times, declared M. J. Conner, (U.P.A., Warren), when speaking in the Alberta Legislature in the debate on the budget.

The federal government has given no formal permission for the Beaumonts Company to export power to the United States, Premier R. B. Bennett announced in the House of Commons.

A case of leprosy has been found in Toronto and the patient, a man, was sent alone in a colonist car, to Tracadie, N.B., where a colony of lepers is established. It is believed the man was seized with the disease in January. He had worked for several years in South America.

For Greater Safety

Ontario Government Doing Away With Ditches Along Some Highways

On some of the highways the Ontario Government has already taken steps to fill in the deep side ditches and make provision for the safety of pedestrians. It may be impractical to carry on work of this nature on a large scale at the present moment owing to the necessity of conserving finances. The moment depression lifts, however, and the treasury is in a position to provide the money there should be no further hesitation in this matter—the Government should go ahead, do away with the ditches, build highway paths, and afford pedestrians the accommodation they are entitled to.

Unbreakable Milk Bottles

McDon Institute researchers have announced discovery of a way to make unbreakable milk bottles, colored to suit the housewife's taste. Specialists from a Buffalo concern collaborated with Marc Darrin, a research student, in developing a process for impregnating cellulose with a wax-like substance and moulding it into the familiar milk bottle form.

Rural Population Small

Canada Has Only \$1.7 Per Cent Living On Farms
Of the 10,367,833 persons who form the population of Canada, exclusive of the Yukon and the Northwest Territories only 3,289,507 or 31.7 per cent live on farms. The rural population of Canada at the last census numbered 4,792,135 of which 3,289,507 or 67.2 per cent lived on farms and were presumably engaged in farming. The remainder 1,502,628 or 32.8 per cent represented the rural population which did not live on farms—usually in small hamlets or other unincorporated villages.

Preparing For Trip

Commander Byrd Going To South Polar Regions In September
An antarctic expedition led by Commander Richard Byrd is to go into the South Polar regions in September. Preparations have already started at Dunedin, New Zealand, to collect supplies for the trip. Among the items are 500 tons of coal, one or two aeroplanes with accessories, approximately 15,000 gallons of gasoline, and about forty tons of food, from thirty to fifty tons of dog food and about fifty tons of other supplies.

Completes Thousandth Run

English Train Also Establishes New Start-to-Stop Record
The Great Western Railway's Cheltenham Flyer recently completed its thousandth run by averaging 73½ miles an hour and establishing a world's start-to-stop record.

Despite a misty rain, the train covered the 77½ miles from Swindon to Cheltenham in 63 minutes with a dead weight of 216 tons behind the tender. It maintained an average speed of 80 miles an hour in spite of some checks. The highest speed reached was 90 miles an hour.

By Ruth Rogers

A DARLING WOOLLEN JUMPER
DRESS WITH DAINTY PUFFED SLEEVED GUIMPE

Navy blue woollen made the original. The guimpe is blue dimity spotted in red. Don't you adore the way the bodice of the dress fastens at the sides? The bone buttons are vivid red shade. Inverted plaits provide the necessary width to the skirt.

Style No. 440 is designed for sizes 8, 10, 12 and 14 years. Size 10 requires 1½ yds. of 39-inch material for dress with 1½ yds. of 35-inch material for blouse.

It's very smart in tweed-wool in yellow and brown with the guimpe of plain yellow.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

MARCH 26

REVIEW—JESUS OUR EXAMPLE IN SERVICE

Golden Text: "Jesus of Nazareth went about doing good."—Acts 10:38.

Review Questions

1. What characteristics had the Baptist and Jesus in common? 2. How did Jesus defend His breaking the traditional laws of the Jews in regard to the keeping of the Sabbath? 3. How can a Christian determine what is right and what is wrong as to the keeping of Sunday? 4. What lessons for today have the parables we have studied? 5. How did the people regard the miracles Jesus wrought, and how did Jesus Himself regard them? 6. What modern methods of healing are carrying on Jesus' work? 7. How did Jesus make His healing work? 8. What would He do today if He were here? 9. What impression did Jesus make on the earliar part of His ministry? 10. What five incidents does Mark record which influenced the Pharisees against Jesus.

1. Where did Jesus spend the first thirty years of His life, and what city was His headquarters during His public ministry? 2. Whose efforts were toward the exaltation of Ananias and the lessening of his own popularity? 3. Why did Jesus associate twelve men with Himself? 4. Name the twelve disciples and tell something about four of them. 5. By what standard did the scribes and Pharisees determine what was right and wrong to do on the Sabbath? 6. What standard did Jesus give for Sabbath observance? 7. What mighty works of Jesus have we studied? 8. Give instances showing the sympathy of Jesus. 9. What is a parable? 10. Tell one of the parables that Jesus did.

Ranks Have Been Depleted

Income Tax Returns Show Fewer Millionaires In British Isles

There are 39 fewer "millionaires" in the British Isles, the recently published inland revenue report for the year ended March 31, 1932, showing only 523 assessed for surtax on individual incomes of £50,000 a year and more, this being the annual income that includes a Britisher in the "millionaire" classification.

The previous report's total of 562 millionaires was the highest in four years. Last year there were 144 persons with incomes of over £100,000, their combined incomes totalling £29,342,143. For the current year the treasury expects to receive £250,000,000 in income taxes from all sources.

Fishing For Comfort

Fishing is going high-hat. Visitors at Peninsula State Bank Park, Erie, Pa., stared open-mouthed upon seeing a man propped up in an easy chair behind a windbreaker while he fished through the ice. He had an artificial heater nearby, and a portable radio.

Australia's home repair campaign has caused a building revival in Melbourne.

CHILDRENS COLDS

Sending Art On Tour

Would Enable People To See Works Of Famous Artists

Sir Philip Sassoon is chairman of the British National Gallery, and it is interesting to learn that he has expressed himself in favour of sending collections of famous paintings to other parts of the world, particularly the British Empire. Little enough is known in Canada about British artists, ancient or modern, and it would be a splendid thing if a touring collection were sent here. Everybody knows about Sir Luke Fildes' "The Doctor," which hangs in almost every doctor's office, but beyond a few of the most popular works British artists are mere names. The National Gallery contains many masterpieces by French, Flemish, Italian and Dutch painters, and presumably any travelling exhibit would also include some of them.

Parliament would have to pass a special Act, as once a picture is hung in the National Gallery it is not supposed to be moved. In the present state of what Joseph Chamberlain called "Thinking Imperially" there should be little opposition to such a proposal, even although the insurance would have to be enormous.

Any peripatetic exhibition should undoubtedly include, if it can be arranged, a selection from the Tate Gallery which is exclusively composed of the work of British painters, or, were living, at the time their works were selected. It is there that "The Doctor" hangs, and some of the more splendid canvasses which British people throughout the world would be thrilled to see.

There are no less than 150 foreign countries have sent art exhibits of fabulous value to London in recent years. The British government should not be slow to act.—St. Thomas Times-Journal.

A camera which photographs finger prints through gloves has appeared in Europe.

The body of Edith Cavell, war nurse, is interred in Norwich Cathedral, England.

Statuettes Placed In Saskatchewan Legislature

Sir John Macdonald and Sir Louis Lafontaine Honored In Memory

The Hon. James F. Bryant, K.C., Minister of Public Works, has placed in the Saskatchewan Legislative Assembly the statuettes of Sir John A. Macdonald and Sir Louis Lafontaine, on pedestals on either side of the Speaker's chair. Before the Orders of the Day were proceeded with Mr. Bryant stood up in the House and said:

Mr. Speaker:—I desire to call the attention of the honorable members of this House to the fact that with your consent, I have caused to be placed on the Speaker's desk, this day, portrait statuettes of Sir John A. Macdonald, and Sir Louis Lafontaine, two great Canadians, executed by the famous French Canadian sculptor, Louis Philippe Hebert.

Mr. Hebert was noted for his statuettes of great Canadians. Returning to Canada after pursuing his studies in Paris, he won the first prize in a competition instituted by the Federal Government, for a statue of Sir George E. Cartier, now on the Parliament Square, Ottawa. Among his other notable works are the statuettes of Sir Alexander MacKenzie and Sir John A. Macdonald at Montreal and Malvern, and the Leval monument at Quebec, the group of members of the Parliament of Quebec. Many of his numerous works of art were inspired by important incidents in the French regime in Canada.

In the Legislative library is a wall plaque in the head of Lieutenant-Governor Forget by Hebert, Lieutenant-Governor Forget and the late Judge Street of Ontario, were erected in the early days of the Northwest Territories in an inquiry into the Department of Indian Affairs. Following the death of Judge Street, his daughter recently gave the plaque to Premier Anderson for the archives of the Province.

The two statuettes were presented to the government of the Northwest Territories and were kept in the old Government House or the old Legislative Building. The statuette of Lafontaine was executed in 1885, and the statuette of Macdonald in 1892. The works of art were thrown into the discard. Last week, I found the broken statuette of Lafontaine in the legislative vault where it had huddled under the bottom shelf for many years. I located in a corner under a table in the paint shop the statuette of Lafontaine and on inquiry found that it had been brought there from under some lumber and junk in the old Power House. On examination, I found the signature of the artist, and on the back on which they were created, on the statuettes. I have had them repaired by the Government painter and believe that they are worthy of a place in the Legislature of Saskatchewan.

Sir John A. Macdonald was formerly a Conservative Prime Minister of Canada and with his history most of you are familiar. Sir Louis Lafontaine was one of the greatest French Canadian leaders at the time of the passing of the Act of Union of the provinces of Upper and Lower Canada in 1841. He was the leader of the Reform Party and the Attorney-General of Lower Canada. He joined the Reform Party and the Attorney-General of Lower Canada. He was the leader of the Reform Party and the Attorney-General of Lower Canada. He was the leader of the Reform Party and the Attorney-General of Lower Canada.

Professor Stephen Leacock of McGill, in the "Makers of Canada" says of Lafontaine:

"Lafontaine was a man of striking presence, of more than ordinary stature and robust and powerful frame. His massive brow and regular features, the thoughtful cast of his countenance and the firm lines of the mouth, offered an almost exact resemblance to the face of the Emperor Napoleon. On his visiting the Invader in Paris, Lafontaine was surrounded by the veterans of Napoleon's guard, who were said to have thrilled with emotion in seeing among them the walking image of the dead Emperor."

Retiring from political life at the age of forty-four, Lafontaine was later appointed Chief Justice of Lower Canada and had a very distinguished career. When he retired from public life in 1851, in his farewell speech, after referring to the different kind of government they had twenty-one years before when he entered political life, Lafontaine said:

"We had a government in which the parliament had no influence, the government of all British Colonies under this government, the people had no power, save only the power of refusing subsidies."

"We commenced therefore our struggle to extirpate these abuses, to establish the form of government that it is our right to have, and which we have today, true representative English Government."

On the base of the statuette is inscribed these words: Government Responsible: "Vous avez les places mais nous n'avons pas le pouvoir." but not the power. As one of the Fathers of responsible Government, the statuette of Lafontaine might well adorn any legislature in the Dominion.

The Province of Quebec has done much to encourage the art among the people of that province and the legislature sets aside each year a sum

Common Sense
Were Commoner
Come to think of it, men, this thing we call common sense isn't so very common. If it were, every pipe smoker would apply common sense to the selection of his pipe tobacco.

That would mean Ogden's Cut Plug of course. For if ever a tobacco was made for pipes it's Ogden's. And your pipe will prove it. It will talk to you in Ogden language. With Ogden's Cut Plug in the bowl you'll forget there ever were such words as "bite" or "burn" in tobacco talk.

OGDEN'S CUT PLUG

If you "roll your own," use Ogden's fine cut cigarette tobacco with Free Chandler cigarette papers

for that purpose. I think in the neighborhood of \$100,000. While we cannot do so in Saskatchewan under present conditions, yet I feel that something substantial should be done yearly when normal conditions return. For example, George Melrum, a young man from Regina is now studying art in London, England. He is a very gifted sculptor and last year had an example of his work displayed in the Royal Academy. There are many niches in the Parliament buildings to be filled. If Melrum were retained at a moderate salary for a year or two and a carload of Italian marble purchased, some marvellous result might be obtained.

Saskatchewan has a number of young artists who, with a little encouragement, might win a place in the National Art Galleries. They have the aesthetic urge which craves for an opportunity for expression. The assistance which the government might give them in the way of encouragement and appreciation might apply the necessary impulse, and might prove what Kipling has described as:

"The little gift by the doorway, And the praise no gift can buy."

More Men Employed
Men predominate in the British Civil Service, of which statistics have just been issued. Of total of 317,889 in the Service, 238,925 are men and 78,464 are women. These figures also include 157,794 ex-service men, of whom 47,635 are classified as disabled.

Quality Turkeys
Since the inception in 1928 of the turkey approval and banding work in Saskatchewan, 82,000 turkeys have been inspected. Of this number 9,245 furnished the requirements of a Saskatchewan approved turkey, the proportion of top grades having steadily risen during the period.

Olive oil produced in Greece this year will weigh more than 100 tons.

IT'S LIVER THAT MAKES YOU FEEL SO WRETHED
Wake up your Liver Bile

No Calomel necessary
For you to feel healthy and happy, your liver must pour two pounds of liquid bile into your blood every day. Without that bile, trouble starts. Your digestion. Slow assimilation. Poisons in the body. Unusual wrinkles. You can now get to clear up a situation like this with a medicine that is not a cathartic, oil, mineral water, laxative, or any of those old-fashioned things. They don't work on your liver.
Get Carter's Little Liver Pills. Purely natural. Safe. Quick and sure results. Ask for them by name. Refuse substitutes. 25¢ at all drug stores.

+ Do You Know? +

Photograph, Canadian National Museum

THAT a porcupine cannot shoot his quills though many people believe that he can? The outer ends of porcupine quills are sharp and barbed and they fasten on to any foreign body with which they come in contact. They are fastened to the body of the animal in a sort of sheath from which they pull easily. The porcupine's favorite method of fighting is to turn his back on his enemy and swing his tail and woe betide anyone so rash as to come close enough for it to hit him. The porcupine can be killed by the same means as a man. A man lost his life in the woods. Except in such emergencies no woodman will kill a porcupine, which because of his bad temper and his quills, leads probably the most sheltered life of any creature in the wilds. Herewith is a porcupine viewing life from a stump in Algonquin Park, northern Ontario, Canada.

Radio And The News

All News Items Broadcasted First By Papers

Those good people who are forever hearing this news and that announced "over the radio" and who seem to think that broadcasting stations are quicker than newspapers in gathering and giving news, may be interested in a despatch from Sioux Falls, South Dakota. It tells of a judge signing a restraining order against a broadcasting company which had been using the news of the American Associated Press. The suit, the first of its kind on record, was a test case to determine the legal right of a newspaper in a despatch from Sioux Falls, South Dakota. It tells of a judge signing a restraining order against a broadcasting company which had been using the news of the American Associated Press. The suit, the first of its kind on record, was a test case to determine the legal right of a newspaper in a despatch from Sioux Falls, South Dakota.

Many people appear to think that the radio has news of its own. It hasn't. All the news that radio broadcasts has been gathered by newspapers, is in newspaper offices, or newspapers before the radio broadcasts it. In most cases it is news given to the radio by the newspapers.

When, last November, the two chief United States broadcasting companies put the presidential election results on the air, some people were heard to say that they had beaten out the newspapers. The actual position was that everything put on the air by radio on election night was given them by the newspapers or news gathering agencies, that without the newspapers they could not have broadcast a single return. And the newspapers permitted the radio to take and use this news despite the fact that its collection had cost the newspapers hundreds of thousands of dollars.

Newspapers have been co-operating with the radio, have been giving news. That, however, is a far different thing from radio allocating to itself the right to use news that doesn't belong to it, which has been collected by the newspapers at tremendous cost. Because it is a different thing, and because this same question has arisen in Canada, the decision in South Dakota is of more than passing interest.—Ottawa Journal.

Jobless Helped By Students

Living Quarters Have Been Provided On McGill Campus

University students have been successful in a novel experiment in the relief of young unemployed men in Montreal. A number of youths were selected from a refuge for the unemployed last fall and have since been maintained by the student body. They are housed at the various campus living quarters and mingle with the students. Their normal working hours are spent in furthering their education by attending lectures. Funds are raised through various campus entertainment, such as dances, afternoon teas and the production of plays. It is planned to increase the number of young men as the funds of the committee grow.

THE CANADA STARCH CO. LIMITED, MONTREAL

Life Insurance Firms Disbursing Large Sums

Amount Paid To Canadian Policyholders Last Year Averaged \$300,000 a Day

Life insurance companies distributed in Canada to policyholders and their heirs the record-breaking total of \$185,000,000 in 1932, according to an estimate prepared by The Financial Post of Toronto.

This figure covers the disbursements of both Canadian and foreign companies in Canada in respect to all payments to policyholders and beneficiaries and represents an increase of over 17 per cent. above the corresponding figure of 1931. It covers both federal and provincial licensed companies and means that Canadian policyholders or their heirs received from life insurance companies in the past year more than \$600,000 every working day. The figure is just double the amount distributed five years ago.

Chief reason for the amazing increase in policy payments by life companies in recent years—in spite of a sharp drop in policy dividend payments—has been the heavy demand for cash surrender values. Everywhere, wage-earners and business and professional men, who have been hard pressed for money, have sooner or later fallen back on the equity in their life insurance contracts to meet these financial demands. This has been natural, of course, since life insurance—almost alone among investments—has remained an immediately available source of funds always payable promptly and at par.

Canadian companies and foreign institutions serving the Canadian field, take pride in the fact that these extraordinary demands which have featured the past two years of depression have been met without hesitation and without any sacrifice of invested funds.

Copied From Nature

Aeroplane Designers Followed Closely Structure Of Bird Wings

Since man first conceived the ambition to fly he has studied the structure of birds; it would be assumed that no detail of their anatomy escaped his attention. Yet "Barnacle," writing in the London Saturday Review on "Some Secrets of Bird Flight," points to an astonishing example of defective observation or failure to comprehend. This has to do with the bastard-wing atop each wing in birds. Nature provides it to effect for the bird the results man tardily achieved by slotting the wing of the airplane. "Barnacle" says that whoever deserves credit for introducing the slotted wing of the airplane did not copy the bastard-wing of the bird, but designed the slotted wing to meet certain known requirements, developing it by trial and error. He declares that nature's device for birds was detected only after the slot had been proved in airplanes, and he quotes Handley Page as saying that "a deal of time and trouble would have been saved had we known earlier that birds have slots in their wings."

It may please man to know that he eventually produced through exercise of his faculties, a device similar to that which nature had for ages used for her flyers. Let him take comfort from that thought. Certainly it is no credit to his powers of inspection and inductive reasoning that nothing was suggested to him by the detail of feathers which "can be made with a pencil or other suitable object, to swing forwards and upwards until there is a gap between it and the parent wing."—New York Sun.

"How are you getting on with your job bill?"

"Fine. I've got five men working under me now."

"Really?"

"Yes—I work upstairs."

Westminster Abbey's Poets' Corner contains a bust of Longfellow and tablets of Lowell and Walter Hines Page.

EXCESS FAT RUINING HER HEALTH

Better After Losing 14 lbs.

There are a number of bodily ailments that are apt to arise in overweight men and women, and if excess fat is reduced in the right way, very often improved health follows—as it did with this woman:—

"I used to have a great deal of fat that seemed to nearly stop me breathing, especially when I knelt down to do any housework, or was walking up a hill. I would simply have to fight for my breath for about 20 minutes. But now that I have lost 14 lbs. in weight, and am able to get about in comfort. I can work all day and not feel tired. I feel so much better, and am so pleased to have lost some of the fat that was steadily gaining ground with me, and ruining my general health."—(Miss) A.K.

There are six vital mineral salts in Kruschen. These salts combat the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue. Unlike ordinary aperients, Kruschen does not confine its action to a single part of the system. Its tonic effects extend to every organ, gland, nerve and vein.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "G.I.N." packages which make it easy for you to prove our claims for yourself. The more you try, the more you will enjoy it.

It is Kruschen does everything we claim it to do, and back. Your druggist is authorized to return your bottle immediately without charge.

You have tried Kruschen free, at our expense. Now, if you are satisfied, please order your regular supply. Write to: G.I.N. Importers, Ltd., Montreal, Que., Canada. (Ltd.) Importers: McMillan Bros., Ltd., Toronto.

Finding Bodies Of Soldiers

Somme Battlefields Yield Dead At Rate Of 800 a Year

Bodies of British soldiers are still being found on the Somme battlefields at the rate of 800 a year, according to the annual report of Major-General Sir Fabian Ware, vice-chairman of the Imperial War Graves Commission. It was estimated that by last autumn there would be no further space in existing cemeteries in the Somme area. Consequently negotiations have been entered into with the French Government for the enlargement of Gilmont Road Cemetery.

General Ware says: "In concentrating now on the hardly less difficult and exacting labors involved in the maintenance, in many lands differing in government, religion, and civilization, and in physical and climatic conditions, the commission secure the support which has been built up to ensure the future. For, during the 15 years that they have been at work, there has been developed a stronger international organization than has ever before existed."

"All governments of the British Commonwealth have for the first time joined together in an active partnership founded not on defence of competing interests, not merely on negative freedom from the dominating control of the senior member, but on a positive realization, which has increased with growing confidence month by month as they have met in council, that each partner can contribute to the solution of common difficulties, experience and knowledge of affairs unequalled in their extent, their variety, and their cumulative power."

Pointers For Palmists

Palmists make a great mistake in deciding to tell fortunes from the lines in the palm instead of from the prints in the finger tips which are different in every person, according to Dr. S. E. Whitnall, professor of anatomy at McGill University. The lines in the palm are merely creases as in the sleeve of a coat, he claims.

Bacon Exports Higher

Canada exported 35,820,400 lbs. of bacon and hams, shoulders and sides, valued at \$3,796,871 during 1932, compared with 12,775,200 pounds and a value of \$2,035,382 for similar products exported in the calendar year 1931.

Human Machines

Remarkable machines have been installed to issue season tickets in London's Underground Railway Stations. They test and sort coins, print and date the tickets, and give any change necessary.

Miss Sweetleigh: "Do you love me more than you ever loved anyone else?"
Mr. Huggermore: "H-m-m! Sure!"
Miss Sweetleigh: "But how do you know unless you've been loving lots of other girls?"

Missing Clues Which Hamper Scotland Yard

Crown Prosecutors Until Chain Of Evidence Appears Complete
Scotland Yard never slumbers. In that sleepless department an unsolved crime is not a pigeon-hole crime. And only death or conviction writes "completed" on a dossier, says a London newspaper.

During the last few years there have been several murders of callous brutality and cunning. The miscreants are still at large. But in three cases the "Yard" are satisfied as to their identity.

The Crown, however, never prosecutes until the chain of evidence is—or appears to be—complete. In those three cases there is a missing link. Given that, and the chain would be complete. The search for it is unceasing.

In one of the cases certain events have brought its discovery nearer. And sensational developments are not unexpected.

In the Furnace case a detective played the part of a street musician. Equally ingeniously, and disguises are adopted frequently.

For instance, an observer not long ago might have seen on a country road not far from London a few workmen with the usual road-repairing paraphernalia engaged upon some supposed repairs. But if he had carefully watched he would have noticed that the men dug out and filled in the same hole time and time again!

The repairs were policemen and the "night watchman" a lynx-eyed detective. The movements of a man under suspicion for a grave crime were under observation.

In another case a suspected person little thought that the man who delivered the milk was a police officer, and in a case in which the police wanted close and minute examination of a suspect's features and certain peculiarities in speech, the broken-down old man who delivered the morning newspaper was none other than a well-known detective.

In one sensational murder case—yet unsolved—the police obtained important clues in fingerprints. Those fingerprints as to the owner of those fingers, but no fingerprints can be taken before a person is arrested—and only with some difficulty after—and in the absence of those prints they are unable to effect an arrest. But they are patiently waiting.

It has been urged that there should be a system of universal registration of fingerprints. Were that system in operation, more than one murder now unsolved would have been explained.

A comparison of the fingerprints found with those of the suspected person would complete the identification, but no fingerprints can be taken before a person is arrested—and only with some difficulty after—and in the absence of those prints they are unable to effect an arrest. But they are patiently waiting.

THE RHYMING OPTIMIST

By Alice Michalco

NAMES

Elizabeth has history's aid To lend it dignity
Elbibe Phyllis suits a rustic maid
While Peg is wild and free.
Patricia is a queen's sound,
Song dwells with Marguerite.
A Judith must with pride be crowned;
But Lisa is so sweet!

Leona strikes a worldly note,
Ava is quick and quaint,
Celina should have a swan-like throat
And Faith must be a saint.
Edna and Beatrice are cool
As some flower-strewn retreat;
Shirley is like a mountain pool,
But Lisa is so sweet!

Forgeries of famous paintings have been detected by means of photography, which reveals the differences of brushwork and mediums between old and modern paintings.

Great Britain exceeds the United States in imports, but not in exports. Great Britain ranks first in the value of exports and imports combined, with the United States second.

Of kidney troubles are pain in the back, difficult urination, deposits in urine. Gin Pills relieve kidney trouble by gently soothing and healing the inflamed tissues. 50c a box at all druggists.

HEADACHE

Here's Quick Relief:

Aspirin brings you immediate relief. It acts before you can feel any effect at all from the slow forms of relief.

Do not hesitate to take Aspirin tablets because of this speed. Their quick action is due to the fact they dissolve immediately. They are perfectly safe. They do not depress the heart.

That's the beauty of a remedy like Aspirin. Anyone can take it, as often as there is any need of its comfort. In sufficient quantity to get complete relief. You could take Aspirin every day in the year without ill effects.

When you want relief from headaches, colds, neuralgia, or neuritis, periodic pains, etc., stick to Aspirin. You know what it will do, and you know what you are taking.

The new reduced price on bottles of 100 tablets leaves no reason for experimenting with any substitute for relieving pain. Insist on Aspirin.

Little Helps For This Week

"Then shall we know, if we follow on to know the Lord."—Hosea 6:3.

And as the path of duty is made plain, May grace be given that I may walk therein.

Not like the hireling for his selfish gain, With backward glances and reluctant tread,

Making a merit of his coward dread, But cheerful in the light around me tread.

Walking as one to pleasant service led, Doing God's will as if it were my own,

Yet trusting not in mine, but in His strength alone.

—J. G. Whittier.

It is by doing our duty that we learn to do it. So long as men dispute whether or not a thing is their duty, they never get nearer. Let them set ever so weakly about doing it, and the face of things alters. They find in themselves strength which they knew not of. Difficulties, which it seemed to them they could not get over, disappear. That which is called considering what is our duty in a particular case, is very often nothing but endeavoring to explain it away.—Bishop Butler.

Has Lost Its Dignity

Women Nowadays Do Not Like Title Of "Grandmother"

Is the name "grandmother" losing some of its ancient charm and dignity?

In quining to be the youngest bearers of it a surprising number of our women readers have protested against being known as "grandmother."

The sum of their complaints is that the term implies that a woman is not merely old, but out of date.

Queen Mary is a grandmother, but, majesty apart, has any one dared yet to rank her as out of date? Lady Oxford is younger than most women of her years, but she does not scorn being called "grandmother."

"Grandmother" is a distinction of which no woman young or old, need be ashamed. It is her title-deed to the inestimable privilege of a second state in the future.—London Daily Express.

The Last Word

An American and a Jewish traveler were in the same railway carriage.

"I wanna tell, and let it soak in," said the former. "The village where I hail from hasn't a Jew. Get me?"

"Yes," replied the Jew, "that's why the place you came from is a village."

A colored man was pleading his own case to save expense. He called the chief witness to the box and demanded:

"Joshua, where was I when we stole them chickens?"

"Do you know where you are?" demanded the tourist's wife.

"No," he admitted. "I'm as lost as the average American is when he starts on the third verse of the national anthem."

Most Famous Spy-Glass

One Owned By Lord Nelson Recently Sold In London

An auction sale was held in the West-end of London, England, recently and a spy-glass was put up for sale. It brought the equivalent of \$7,700 par value. It was not nearly as good as any modern spy-glasses costing a few dollars would be, nor was it encrusted with diamonds. But it was probably the most famous of its kind in the world.

It was the glass that Nelson held up to his blind eye and said, quite truthfully, that he did not see an overwhelming armada bearing down upon his fleet at Trafalgar.

At the same sale \$800 was paid for the silver watch presented to Midshipman Pollard who killed the sharpshooter who mortally wounded the British Admiral.

Prince Conducts Band

The Prince of Wales, using a drumstick for a baton, conducted the band in a lively fox-trot at the St. David's Day dance given by the 1st Battalion of the Welsh Guards, of which he is the Colonel. The Prince's rendition was repeatedly cheered until he laughingly told the dancers that conducting was more strenuous than dancing. Later he acted as master of ceremonies, selecting the tunes.

The submarine is regarded as a modern invention, but the first one was really built in England in 1620. It was a wooden shell, covered with leather, and navigated by 12 rowers.

When Your Daughter Comes to Womanhood

Give Her Lydia E. Pinkham's Vegetable Compound

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

The submarine is regarded as a modern invention, but the first one was really built in England in 1620. It was a wooden shell, covered with leather, and navigated by 12 rowers.

LOCAL AND GENERAL

Everyone can help to make the town cleaner by removing unsightly ash piles as early as possible.

Mr. and Mrs. Frank J. Smith were visitors in town on Monday afternoon.

Mr. and Mrs. Fred Guerdan announce the birth of a son on March 19th.

Walter S. Purvis left this week for Winnipeg for the International Coal Co.

T. Clarke of Macleod spent the week-end visiting Mr. and Mrs. T. Clarke Jr., Sixth street.

Mr. and Mrs. Arthur E. Graham attended the dramatic festival recently held in Lethbridge.

Buy advertised goods from those whose advertisements you read in The Journal.

Why people do not go to church would bring forth many interesting reasons, and many a thing. We hesitate to invite correspondence, for fear we might be deluged with letters.

Because you live in a small town is no reason why you should not be prompt and as business-like as people of the cities, where competition is much keener than in the smaller centres.

It has been proposed to re-organize the town band with a former well-known band leader in charge. Most of the instruments are on hand and many old players have expressed their willingness to play.

A meeting of members of the Canadian Legion and co-servers met is announced to be held in the council chamber on Monday, March 27th, at 7:30 p.m.—H. Garner, president; Col R. F. Barnes, secretary.

Business or private correspondence looks better and is more easily and quickly read if written with a Remington portable typewriter. The ideal machine for correspondence of all kinds. See samples at the Journal in various colors. Terms to suit if desired.

In honor of Gwen Snowden's recent marriage, showers were held on Friday evening by her girl friends, and on Saturday by older friends of the family. She was the recipient of many nice gifts and showers of congratulatory messages of happiness.

The advent of spring is a reminder that the football club will again become active, also the baseball and softball clubs. Keen interest is anticipated in these sports in view of the competitions to be staged on Dominion Day, for which good prizes are to be offered.

J. Poxton is the first to report having seen bluebirds and robins, which were seen on Sixth street last week. The music of running water in the creeks will soon be heard and spring will re-awaken new life and enthusiasm. No wonder poets are inspired at this season of the year.

Giuseppe Zangara, electrocuted for the murder of Mayor Cermak, was disappointed because there was not a camera man to take a photograph of his execution. It denotes that criminals of this type have a love of publicity, and is one of the incentives which prompts them to wage war or prominent people. It recalls the story of a notorious agent or of fiction who finding his power to command publicity continually dwindling till not a soul would listen to him, in desperation one dark night, jumped into the river and drowned. There are many agitators of the present day who would not be missed were they to follow suit.

BUSINESS CALLS

Permanent Waving—special for a short time only—\$5.00. — Huffman's Beauty Parlor, Phone 147.

Many fine Easter novelties are on display at Palm Confectionery, at prices from 5c to 75c. See the window display.

TENDERS FOR REFRESHMENT BOOTHS FOR CARNIVAL

Applications for refreshment booths at the Citizens League Carnival, May 23, 24, 25, should be made as early as possible. Applicants must erect their own booths, and applications must be addressed to J. Wilson, secretary of carnival committee.

BUY REMINGTON TYPEWRITERS

In buying a Remington portable typewriter, you are given a guarantee of service which cannot be given in purchasing second-hand machines. It pays to buy a machine which in time proves to be the cheapest and gives the user 100 per cent efficiency and satisfaction. Samples on display at The Journal office.

Counter Check Books may now be obtained through The Journal office, quality books at lowest current prices sold. Keep this in mind when your salesman, and place your order locally.
